The 2015 10-K discussed revenue 19 recognition and seasonality of revenue, stating in relevant part:

28

Revenue Recognition

We derive revenue from two sources: (i) products revenue, which includes 22 hardware and perpetual software license revenue; and (ii) services revenue, which 23 include post contract support ("PCS"), professional services, and training. A substantial portion of our revenue is from sales of our products and services 24 through distribution channel partners, such as resellers and distributors. Revenue is recognized, net of applicable taxes, when all of the following criteria are met: 25 persuasive evidence of an arrangement exists, delivery or performance has 26 occurred, the sales price is fixed or determinable, and collection is reasonably assured. 27

We define each of the four criteria above as follows:

Persuasive evidence of an arrangement exists. Evidence of an

arrangement consists of a purchase order issued pursuant to the terms and conditions of a master sales agreement.

Delivery or performance has occurred. We use shipping documents or written evidence of customer acceptance, when applicable, to verify delivery or performance. We recognize product revenue upon transfer of title and risk of loss, which primarily is upon shipment to customers. We do not have significant obligations for future performance, such as customer acceptance provisions, rights of return, or pricing credits, associated with our sales.

The sales price is fixed or determinable. We assess whether the sales price is fixed or determinable based on payment terms and whether the sales price is subject to refund or adjustment. Standard payment terms to customers range from 30 to 90 days.

Collection is reasonably assured. We assess probability of collection on a customer-by-customer basis. Our customers are subjected to a credit review process that evaluates their financial condition and ability to pay for products and services.

PCS revenue includes arrangements for software support and technical support for our products. PCS is offered under renewable, fee-based contracts, which include technical support, hardware repair and replacement parts, bug fixes, patches, and unspecified upgrades on a when-and-if available basis. Revenue for PCS services is recognized on a straight-line basis over the service contract term, which is typically one year, but can be up to five years. Unearned PCS revenue is included in deferred revenue.

Professional service revenue primarily consists of the fees we earn related to
installation and consulting services. We recognize revenue from professional
services upon delivery or completion of performance. Professional service
arrangements are typically short term in nature and are largely completed within
30 to 90 days from the start of service.

- 19. The 2015 10-K discussed internal controls, stating in relevant part:
- Based on the assessment, *our management has concluded that its internal control over financial reporting was effective as of December 31, 2015* to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with GAAP.

We define each of the four criteria above as follows:

• Persuasive evidence of an arrangement exists. Evidence of an arrangement consists of a purchase order issued pursuant to the terms and conditions of a master sales agreement.

• Delivery or performance has occurred. We use shipping documents or written evidence of customer acceptance, when applicable, to verify delivery or performance. We recognize product revenue upon transfer of title and risk of loss, which primarily is upon shipment to customers. We do not have significant obligations for future performance, such as customer acceptance provisions, rights of return, or pricing credits, associated with our sales.

• The sales price is fixed or determinable. We assess whether the sales price is fixed or determinable based on payment terms and whether the sales price is subject to refund or adjustment. Standard payment terms to customers range from 30 to 90 days.

• Collection is reasonably assured. We assess probability of collection on a customer-by-customer basis. Our customers are subjected to a credit review process that evaluates their financial condition and ability to pay for products and services.

PCS revenue includes arrangements for software support and technical support for our products. PCS is offered under renewable, fee-based contracts, which include technical support, hardware repair and replacement parts, bug fixes, patches, and unspecified upgrades on a when-and-if available basis. Revenue for PCS services is recognized on a straight-line basis over the service contract term, which is typically one year, but can be up to five years. Unearned PCS revenue is included in deferred revenue.

Professional service revenue primarily consists of the fees we earn related to installation and consulting services. We recognize revenue from professional services upon delivery or completion of performance. Professional service arrangements are typically short term in nature and are largely completed within 30 to 90 days from the start of service.

On July 13, 2017, A10 issued the press release entitled, "A10 Networks Announces 35.

5 Preliminary Second Quarter 2017 Financial Results" which stated in relevant part:

A10 Networks expects total revenue in the second quarter 2017 to be between \$52.5 million and \$53.5 million, below its prior guidance of \$62.0 million to \$64.0 million. The company expects to report a GAAP net loss between \$0.12 and \$0.13 per share. On a non-GAAP basis, the company expects to report a net loss between \$0.05 and \$0.06 per share, using approximately 69.8 million basic shares, which is below the previous guidance for non-GAAP net income of \$0.01 to \$0.03 per share, using approximately 76.6 million diluted shares. A preliminary reconciliation between GAAP and non-GAAP information is contained in the financial statements below.

12 "We are disappointed with our preliminary results. Revenue came in below our guidance as a number of opportunities in our pipeline did not close primarily in 13 North America and to a lesser degree in Japan. Key deals remain in our pipeline 14 and we are diligently working to improve our execution," said Lee Chen, president and chief executive officer of A10 Networks. "We remain confident that 15 our investments in security and cloud will serve as a strong foundation to 16 penetrate these faster-growing segments of our market."

The Truth Begins To Emerge

43. On January 16, 2018, A10 issued the press release, "A10 Networks Announces 10 Preliminary Fourth Quarter 2017 Results." The press release revealed that the Company expected 11 revenue for 2017 under its previously issued guidance stating irrelevant part: 12

9 recognition practices for the fourth quarter of 2015, stating in relevant part:

10 In the fourth quarter of 2017, the Company determined that a mid-level employee within its finance department had violated the Company's Insider Trading Policy 11 and Code of Conduct. As a result, the Company, with the assistance of outside counsel, conducted an email review and additional procedures to ensure the 12 accuracy of its reporting of financial information for 2017. Such review and 13 procedures did not identify matters that required material adjustments to be made. Nonetheless, the Company's Audit Committee determined that further review 14 and procedures relating to certain accounting and internal control matters should be undertaken. The Audit Committee's investigation, which is being 15 conducted with the assistance of outside counsel, is principally focused on 16 certain revenue recognition matters from the fourth quarter of 2015 through the fourth quarter of 2017 inclusive. 17

Class Action Complaint for Violation of the Federal Securities Laws

47. As a result of Defendants' wrongful acts and omissions, and the precipitous decline
 in the market value of the Company's securities, Plaintiff and other Class members have suffered
 significant losses and damages.

4

PLAINTIFF'S CLASS ACTION ALLEGATIONS

5 48. Plaintiff brings this action as a class action pursuant to Federal Rule of Civil 6 Procedure 23(a) and (b)(3) on behalf of a Class, consisting of all those who purchased or otherwise 7 acquired the publicly traded securities of A10 during the Class Period (the "Class"); and were 8 damaged upon the revelation of the alleged corrective disclosures. Excluded from the Class are 9 Defendants herein, the officers and directors of the Company, at all relevant times, members of their 10 immediate families and their legal representatives, heirs, successors or assigns and any entity in 11 which Defendants have or had a controlling interest.

49. The members of the Class are so numerous that joinder of all members is 12 impracticable. Throughout the Class Period, A10 securities were actively traded on the NYSE. 13 While the exact number of Class members is unknown to Plaintiff at this time and can be 14 ascertained only through appropriate discovery, Plaintiff believes that there are hundreds or 15 thousands of members in the proposed Class. Record owners and other members of the Class may 16 be identified from records maintained by the Company or its transfer agent and may be notified of 17 the pendency of this action by mail, using the form of notice similar to that customarily used in 18 securities class actions. 19

20 50. Plaintiff's claims are typical of the claims of the members of the Class as all
21 members of the Class are similarly affected by Defendants' wrongful conduct in violation of federal
22 law that is complained of herein.

23 51. Plaintiff will fairly and adequately protect the interests of the members of the Class
24 and has retained counsel competent and experienced in class and securities litigation. Plaintiff has
25 no interests antagonistic to or in conflict with those of the Class.

52. Common questions of law and fact exist as to all members of the Class and
predominate over any questions solely affecting individual members of the Class. Among the
questions of law and fact common to the Class are:

1	•	whether the federal securities laws were violated by Defendants' acts as alleged	
2		herein;	
3	•	whether statements made by Defendants to the investing public during the Class	
4		Period misrepresented material facts about the financial condition, business,	
5		operations, and management of the Company;	
6	•	whether Defendants' public statements to the investing public during the Class	
7		Period omitted material facts necessary to make the statements made, in light of the	
8		circumstances under which they were made, not misleading;	
9	•	whether the Individual Defendants caused the Company to issue false and misleading	
10		SEC filings and public statements during the Class Period;	
11	•	whether Defendants acted knowingly or recklessly in issuing false and misleading	
12		SEC filings and public statements during the Class Period;	
13	•	whether the prices of A10 securities during the Class Period were artificially inflated	
14		because of the Defendants' conduct complained of herein; and	
15	•	whether the members of the Class have sustained damages and, if so, what is the	
16		proper measure of damages.	
17	53.	A class action is superior to all other available methods for the fair and efficient	
18	adjudication of	of this controversy since joinder of all members is impracticable. Furthermore, as the	
19	damages suffered by individual Class members may be relatively small, the expense and burden of		
20	individual litigation make it impossible for members of the Class to individually redress the wrongs		
21	done to them.	There will be no difficulty in the management of this action as a class action.	
22	54.	Plaintiff will rely, in part, upon the presumption of reliance established by the fraud-	
23	on-the-marke	t doctrine in that:	
24	•	Defendants made public misrepresentations or failed to disclose material facts during	
25		the Class Period;	
26	•	the omissions and misrepresentations were material;	
27	•	A10 securities are traded in efficient markets;	
28			
		- 21 -	
	Class Action Complaint for Violation of the Federal Securities Laws		

1	•	the Company's securities were liquid and traded with moderate to heavy volume	
2		during the Class Period;	
3	•	the Company traded on the NYSE, and was covered by multiple analysts;	
4	•	the misrepresentations and omissions alleged would tend to induce a reasonable	
5		investor to misjudge the value of the Company's securities; and	
6	•	Plaintiff and members of the Class purchased and/or sold A10 securities between the	
7		time the Defendants failed to disclose or misrepresented material facts and the time	
8		the true facts were disclosed, without knowledge of the omitted or misrepresented	
9		facts.	
10	55.	Based upon the foregoing, Plaintiff and the members of the Class are entitled to a	
11	presumption of	of reliance upon the integrity of the market.	
12	56.	Alternatively, Plaintiff and the members of the Class are entitled to the presumption	
13	of reliance est	ablished by the Supreme Court in Affiliated Ute Citizens of the State of Utah v. United	
14	States, 406 U.S. 128, 92 S. Ct. 2430 (1972), as Defendants omitted material information in their		
15	Class Period statements in violation of a duty to disclose such information, as detailed above.		
16		COUNT I	
17		Violation of Section 10(b) of The Exchange Act and Rule 10b-5 Against All Defendants	
18	57.	Plaintiff repeats and realleges each and every allegation contained above as if fully	
19	set forth herei	n.	
20	58.	This Count is asserted against the Company and the Individual Defendants and is	
21	based upon S	ection 10(b) of the Exchange Act, 15 U.S.C. § 78j(b), and Rule 10b-5 promulgated	
22	thereunder by	the SEC.	
23	59.	During the Class Period, the Company and the Individual Defendants, individually	
24	and in concer	t, directly or indirectly, disseminated or approved the false statements specified above,	
25	which they	knew or deliberately disregarded were misleading in that they contained	
26	misrepresenta	tions and failed to disclose material facts necessary in order to make the statements	
27	made, in light	of the circumstances under which they were made, not misleading.

- 1 60. The Company and the Individual Defendants violated §10(b) of the 1934 Act and
 2 Rule 10b-5 in that they:

• employed devices, schemes and artifices to defraud;

- made untrue statements of material facts or omitted to state material facts necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading; or
 - engaged in acts, practices and a course of business that operated as a fraud or deceit upon plaintiff and others similarly situated in connection with their purchases of A10 securities during the Class Period.

10 61. The Company and the Individual Defendants acted with scienter in that they knew that the public documents and statements issued or disseminated in the name of the Company were 11 12 materially false and misleading; knew that such statements or documents would be issued or 13 disseminated to the investing public; and knowingly and substantially participated, or acquiesced in 14 the issuance or dissemination of such statements or documents as primary violations of the 15 securities laws. These defendants by virtue of their receipt of information reflecting the true facts of 16 the Company, their control over, and/or receipt and/or modification of the Company's allegedly 17 materially misleading statements, and/or their associations with the Company which made them 18 privy to confidential proprietary information concerning the Company, participated in the fraudulent scheme alleged herein. 19

62. Individual Defendants, who are the senior officers and/or directors of the Company,
had actual knowledge of the material omissions and/or the falsity of the material statements set forth
above, and intended to deceive Plaintiff and the other members of the Class, or, in the alternative,
acted with reckless disregard for the truth when they failed to ascertain and disclose the true facts in
the statements made by them or other personnel of the Company to members of the investing
public, including Plaintiff and the Class.

63. As a result of the foregoing, the market price of A10 securities was artificially
inflated during the Class Period. In ignorance of the falsity of the Company's and the Individual
Defendants' statements, Plaintiff and the other members of the Class relied on the statements

Class Action Complaint for Violation of the Federal Securities Laws

1 described above and/or the integrity of the market price of A10 securities during the Class Period in 2 purchasing A10 securities at prices that were artificially inflated as a result of the Company's and 3 the Individual Defendants' false and misleading statements.

4 64. Had Plaintiff and the other members of the Class been aware that the market price of 5 A10 securities had been artificially and falsely inflated by the Company's and the Individual Defendants' misleading statements and by the material adverse information which the Company's 6 and the Individual Defendants did not disclose, they would not have purchased A10 securities at the 7 8 artificially inflated prices that they did, or at all.

9 65. As a result of the wrongful conduct alleged herein, Plaintiff and other members of 10 the Class have suffered damages in an amount to be established at trial.

11 66. By reason of the foregoing, the Company and the Individual Defendants have violated Section 10(b) of the 1934 Act and Rule 10b-5 promulgated thereunder and are liable to the 12 13 Plaintiff and the other members of the Class for substantial damages which they suffered in connection with their purchases of A10 securities during the Class Period. 14

15

16

Violation of Section 20(a) of The Exchange Act **Against The Individual Defendants**

COUNT II

17 67. Plaintiff repeats and realleges each and every allegation contained in the foregoing 18 paragraphs as if fully set forth herein.

19 68. During the Class Period, the Individual Defendants participated in the operation and 20 management of the Company, and conducted and participated, directly and indirectly, in the 21 conduct of the Company's business affairs. Because of their senior positions, they knew the adverse 22 non-public information regarding the Company's business practices.

23

69. As officers and/or directors of a publicly owned company, the Individual Defendants 24 had a duty to disseminate accurate and truthful information with respect to the Company's financial 25 condition and results of operations, and to correct promptly any public statements issued by the 26 Company which had become materially false or misleading.

27

70. Because of their positions of control and authority as senior officers, the Individual 28 Defendants were able to, and did, control the contents of the various reports, press releases and

public filings which the Company disseminated in the marketplace during the Class Period.
Throughout the Class Period, the Individual Defendants exercised their power and authority to
cause the Company to engage in the wrongful acts complained of herein. The Individual Defendants
therefore, were "controlling persons" of the Company within the meaning of Section 20(a) of the
Exchange Act. In this capacity, they participated in the unlawful conduct alleged which artificially
inflated the market price of A10 securities.

7 71. Each of the Individual Defendants, therefore, acted as a controlling person of the
8 Company. By reason of their senior management positions and/or being directors of the Company,
9 each of the Individual Defendants had the power to direct the actions of, and exercised the same to
10 cause, the Company to engage in the unlawful acts and conduct complained of herein. Each of the
11 Individual Defendants exercised control over the general operations of the Company and possessed
12 the power to control the specific activities which comprise the primary violations about which
13 Plaintiff and the other members of the Class complain.
